Dear Examiner Koppikar

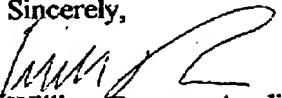

6/11/07

This letter confirms a conversation we had last week regarding a telephone interview we have scheduled for 6/12/07 at 10 AM. You are going to call me at this time at 203-217-0700.

I am requesting your guidance in overcoming the most recent objections you outlined in you 4/19/07 Office Action Summary. I would like to get your suggestions on modifications to my claims, and any other suggestions you may have, that would overcome your objections. I would appreciate it if you could review my specification prior to the telecom and have some suggestions prepared. I discussed this approach with Examiner Luke Gilligan and he felt it was a good approach to resolving your objections and aiding a pro se inventor.

I look forward to hearing your suggestions tomorrow.

Sincerely,

William Reeves, Applicant

cc: Luke Gilligan, Joseph Thomas
